

# NEW GAMING SYSTEM!

»» EXCITING UPDATES FOR CT LOTTERY RETAILERS ««

*CT Lottery is excited to share news on our upcoming gaming system conversion, projected for the spring of 2023. In the coming months we will be updating you with new information about the conversion and how it will affect your business.*

## STEP #1

The first step is planning for placement of new, state of the art terminals.

Beginning in June, your field representative will be conducting a site survey of your store to prepare for the new terminal installations. They will be documenting and taking pictures of the current Lottery equipment, planning for where your new terminal will go and asking a few questions. The site survey will not take long and will not be disruptive to your business. Gathering this information now will lead to a smooth transition when your new terminal is installed.

Stay tuned for updates on more topics, such as:

- ***New Terminal & Equipment Dimensions***
- ***New Terminal Features***
- ***Training to Operate New Terminals***
- ***Electrical Requirements***

We hope you are looking forward to beginning this process with us and taking this first step!
