Proposer Questions and CLC Responses

Proposer Questions and CLC Responses

Questions 1: Can you confirm if your artists are expecting this to be a gradient imprint, if they want the imprint to be actually gold and they are just trying to show that this is shiny, or if they are expecting a flat color (EX a PMS match to 1 color).

All of these will be different prices, and they only mention 'gold' as the logo, not if that is gradient, a flat color, or a metallic gold.

Response: No, gradient imprint is not expected. Gold logo is to be of Metallic Gold (Pantone 871 C)

Questions 2: In the RFQ, there is not a specific T-shirt brand recommended, rather a description including the fabric: 50% polyester, 37% cotton and 13% rayon. Are substitutes acceptable?

Response: No, the CT Lottery Corporation will not accept substitutes.

Questions 3: Embroidery for both the left chest and full back OR embroidery for left chest only and full back screening?

Response: Price as quoted in the RFQ.
Cost for silkscreen on front and back of T-shirt.
Cost for embroidery on front and back of T-shirt.
